Guidance on Claiming and Qualifying for a preference in Public Housing Only!

- Employed:** Working Preference will be granted to applicants that are employed at the time they are being housed. Applicants must be working at least 10 hours per week at the Federal Minimum Wage to qualify or earn an annual salary of \$ 3,848.00.
- 62 and Over:** Self-explanatory.
- Disabled:** Anyone receiving either all or a part of their monthly income from SSI or SSD.
- Other applicants may qualify for the disabled preference. Applicants that claim the disabled preference that do not receive SSI/SSD, will be required to sign an additional form and provide the name of a medical professional to verify they meet HUD's definition of disabled. Applicants receiving general assistance, worker's compensation and disabled veteran's do not automatically qualify for the disabled preference. By policy, applicants ***not receiving SSI/SSD will not be given the preference*** until it is verified by a medical professional.
- Veteran/Family:** Available to current members of the Armed Forces and their families, veterans or surviving spouses of veterans.
- Veterans would qualify for the preference simply by providing a copy of their DD-214 when asked.
- Surviving spouses will be required to provide additional documentation.
- Federal Disaster:** This preference is only extended to victims of a Federally declared disaster area with proof from a Federal Agency.
- Homeless:** With proper documentation, a preference will be given to a homeless person or family living in a supervised publicly or privately operated shelter designated to provide temporary living arrangements (including congregate shelters, transitional housing and hotels and motels paid for by charitable organizations or by federal, state, or local government's programs for low income individual or families).

Note: All preferences will be verified at the time of housing. Any applicant not eligible for a claimed preference at the time of housing will have their position on the waiting list adjusted by removing the preference.
